So the product not just real and working but user also like the product!

The effect and performance of AkkuFresh® Next Generation™ depends on several factors: Type of device (mobile phone / notebook / camera / etc.), brand, model – type of battery, age, status (total amount of charging-discharging cycles), external temperature, environmental conditions and cellular network.

Dear Szilveszter Belső,

Thank you for all the help you have given me from the time we have started the AkkuFresh distribution. Under the last year we have sold more than 10'000pcs. We think in the year 2009 we will extend our sells.

I especially appreciate the information and advice you have provided to me and to my colleagues. Your assistance has been invaluable to me from the beginning.

Again, thank you so much. I greatly appreciate your business.

Best Regards,
